

Extreme Self-Care for Women

“Dare to put yourself 1st and make your greatest contribution to humanity.”

THE ART OF EXTREME SELF-CARE is about “giving yourself permission to care for yourself deeply and deliberately. As we do this, we naturally begin to care for others – our families, our friends, and the world – in a healthier and more effective way. We become conscious and conscientious people. We tell the truth. We make choices from a place of love and compassion instead of guilt and obligation. And we begin to understand on a visceral level that we’re all connected, and that our individual actions affect the greater whole in a more profound way than we ever imagined.” – Cheryl Richardson
